

New Chvasta Chocolate Bliss Facial Treatment

Regular Price: \$125.00

February Special: \$99.50

Why is Chvasta's Chocolate Bliss Facial so good for you?

Many spas are incorporating a chocolate facial to their menu because it nourishes the skin with essential nutrients and anti-oxidants. Tamarind has been used in Ayurveda for thousands of years and is a natural exfoliant containing tartaric acid. Tartaric acid is a type of alpha hydroxy acid (fruit acid) that improves skin texture and tone. Even better than the taste or delicious aroma, chocolate's high caffeine content stimulates your circulation, allowing your blood to naturally rejuvenate and heal your skin. Anti-oxidants also give your skin a plumper, firmer feel and help your cells build collagen and elastin. Anti-oxidants work throughout your skin to help prevent damage by free radicals, the culprits responsible for aging skin and loss of elasticity.

This is one chocolate treat you can indulge in completely guilt-free!

These steps are incorporated into this sweet treat for your skin:

- First, your skin will be cleansed with *Liquid Soap*, gentle enough for all skin types.
- Next, a second cleansing using the *Grape Seed Scrub* and steam allow for a mild peeling. The *Revitalizing Toner* will remove any cleanser residue.
- Then, a chocolate exfoliating mask will allow for improved circulation, skin texture and tone. Extractions will be performed as necessary.
- A facial massage using Swedish massage techniques will be given.
- Then, the *Anti-oxidant Vitamin Mask* will rejuvenate the appearance of the skin slowing down the aging process. The *Beyond Complex C* will be applied for added healing and anti-aging benefits.
- Finally, moisturizer will be applied to finish.
